

STONY PLAIN SUN.

VOLUME NINE

STONY PLAIN.

ALBERTA. THURSDAY, MAY 16 1929.

Whole Number 458

Agricultural Society.

The annual meeting of the Agricultural Society was held on May 10. On a vote, Mr W M Washburn was elected Pres. and Dr Oatway Secretary; Henry Schellenberger 1st Vice; Philip Shultz 2d Vice.

Directors: E C McLaughlin, Dr Oatway, C Pitzler, Ph Trautman, John Staub, M McKinlay, Chas Propp, John Schultz.

A committee of 3 was appointed to inspect the Barn, and dispose of same.

The Society meets again Sat May 25 at 8.30.

A Worthy Couple Honored.

A pleasant surprise was given to Mr and Mrs George Spike when a party of friends called and served a dainty lunch and then they all journeyed on to the Pitzler brothers' ranch, where dancing and refreshments were enjoyed. Among those present were: Mr & Mrs G. Pempelt, Legal; Mr and Mrs W Pempelt, Legal; Chief Shute and Mrs Shute; Edmonton; Mr and Mrs E A Pitzler, Mr and Mrs Chris Pitzler; Mrs P Merencie, Legal; Mr Eric Pempelt, Legal; Mr and Mrs G Rennie, Mr and Mrs A Spence, Mr and Mrs W Wells, all of Edmonton; Mr and Mrs A Hamilton; Mr & Mrs W E Gellhouse; Mr and Spike and Grace Spike, Miss Watt.

LOCAL NEWS.

On Tuesday members of Town Council made a survey of the winter road, being a continuation of Main street from Oatway avenue north. A sealed verdict was returned.

Mr N S Maguire, district manager of the C.N.R. Dept. of Colonisation, visited Stony on Tuesday. Mr Maguire was well pleased at the progress made in placing incoming settlers by the local C.N.R. agent, Mr F Werner.

Our local colonisation agent, P Werner, received a shipment of 10 Britishers on Monday, which have been placed in good positions with farmers in this district.

Work on the Baseline.

A beginning was made on Monday on the new roadbed on the Baseline. Contractor W E Forman brought his large outfit from the City Saturday and is encamped four miles west. Two more outfits are encamped nearby. The contract calls for approximately 150,000 cu. yds. of cut-and-fill work to be done on the 19-mile stretch between Blueberry corner and Wint erburn.

Traffic on the Baseline has been diverted at the Meridian road corner to the south.

At Mudville's Corner.

One of our local trucks, returning from the City Saturday afternoon, was mired hub down on Meridian road at the Gus Mintz corner. The vehicle had to be unloaded before it was pulled out. On Monday morning another local truck was mired at the same spot, and this required the combined efforts of four husky horses to haul the truck on to dry land. This soft spot is the town's hardy perennial. Visiting motorists claim this is the worst series of chuck holes between Stony and the City.

Sporting Notes.

At the baseball game in Stony on Thursday Concordia College beat the local team by 23 runs to 11. One of the local batters (Mr Bigelow) hit the ball such a good clout that it bounced off the pitcher's head and soared 100 feet in the air; incidentally, Pitcher Schmidt was knocked out. Lory & Rosnan were the local batters. Schmit & Mashmeyer pitched for the College, while Plunz caught.

Sunday's ball game at Holborn resulted: Stony Plain, 8 runs, C Enders & E Heichen pitchers, C Fuhr c. Holborn 3 runs, R Witherspoon p. Kimberley c. Owing to the disagreeable weather, only seven innings were played.

At Duffield, on Sunday, the ball game resulted: Duffield 4, Wabamun 1. John Clemens is the new manager of the Duffield team.

Walther League plays Concordia College baseballers in Edmonton on Monday afternoon, the 20th.

The Power Of Small Things

The following item was recently printed in a large number of newspapers:

"Forty-five years ago there was a strike in an Ohio coal mine. A group of enraged miners took a car of coal, set it afire, and pushed it down into the mine. That fire is still burning under ground, spreading many miles, destroying valuable coal deposits and rendering hundreds of acres of surface ground sterile. Today it threatens to destroy a school building and some homes in a village. Burning beneath them it is undermining the ground and may cause them to collapse. The fire that a moment's anger started 45 years ago certainly turned out to be a bigger thing than the men who started it ever imagined."

There is a moral to this incident which might well be heeded, for, after all, it is but an illustration, a spectacular one, it is true, of almost every day happenings. The moral is that a small act may have far-reaching consequences, either for good or for evil.

A cow kicked over a lamp in a barn in Chicago, and the Great Chicago Fire resulted.

A frenzied student assassinated an Austrian Grand Duke and his wife, and the Great War was the immediate outcome with its sacrifice of ten millions of lives and hundreds of billions of dollars in property and other losses.

An employee is dismissed in anger, and perhaps unjustly, and a nationwide strike follows bringing suffering and ruin in its wake.

A careless workman, or a dishonest contractor, neglects to put a sufficient quantity of cement in the foundations of a building or in the piers for a bridge, or the retaining wall of a dam, and disaster follows taking heavy toll in human lives.

A rotten timber is used in building a ship, and the vessel sinks; a faulty fuel is laid in a track, and a train is wrecked; a careless camper neglects to put his fire, and a terrible conflagration wipes out a forest.

And how often has a hasty word, an insulting remark, led to family and business estrangements with dire results to all concerned.

How often, too, has the peace and friendliness of an entire community been destroyed because of the whispered scandal, the unguarded reflection upon the honor and integrity of another, the prejudiced utterance casting aspersions upon those of different races or religious beliefs.

All little things in comparison to their terrible effects and disastrous results!

Fortunately, for the human family, the reverse is also true.

We still recall our childhood's interest in the story of the little Dutch boy who by sticking his finger in the small hole in a dam saved his country from inundation. We delight in the personal histories of great men and women who were started on their careers by the kindly, encouraging word of some friend.

We know, too, by personal observation that the mighty oak is born or the humble acorn; that it was in a single kernel of wheat the hundreds of millions of bushels of Marquis wheat annually harvested in Western Canada had their origin.

If we would but remember and give heed to the fact that, just as a pebble thrown into the water causes ever widening circles of little waves to sweep its surface until finally they lose themselves upon the shore, so does every word and act of ours create little circles of influence radiating out into our homes, our offices, our communities and the world at large, and, for good or ill, affecting the lives and future of others and of our country, then, perchance, we would be more careful, more considerate, a little less hasty and impatient of others, and more inclined to extend that degree of sympathy and tolerance to others which we naturally expect will be displayed towards us.

Satisfied Money Was Safe

A man deposited \$10,000 in a bank. A few weeks later he approached the teller and demanded his money. He was asked if he did not want to leave a small balance. "No," he persisted, "I want my money." So the teller counted out \$10,000. By this time a line of people had collected, each one waiting his turn. The man counted the bills very carefully and handed them to the teller.

"Here," he said, "put it back. I only wanted to see if it was all there."

Nation-Wide Fame.—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

A town is made beautiful by each one doing his share in fixing up his own property. It's a case of "You in your small corner and I in mine."

Simple Precautions Against FLU Sore Throat — — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower, then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

The World's Air Centre

British Ports Will Be Headquarters In Next Decade Is Prediction

Only a decade or two hence and airplanes and airships may be leaving British ports for all quarters of the Empire and of the world as regularly as steamers do now. From coach to railway, from sailing ship to the steam and oil-driven levitators of today, from the horse to the car, from the balloon to the airplane the great job of annihilating time and space goes on. And at each new step, in each successive phase, British inventiveness, British engineering, and British pluck are to the fore. In the air as on the water, Nature has marked us down as the centre of the world.—London Daily Express.

A QUICK WAY TO END BABY'S UPSET SPELLS

"Like other young mothers, I worried every time Baby cried," says a Syracuse, N.Y. woman. "Several times when she was upset or constipated, I tried castor oil but she couldn't retain it. Our doctor told me to try Fletcher's Castoria because it is harmless and babies like it. That ended my worries and I've used it since for my children." Castoria never fails to delight mothers by the quick way it ends those upsets of babies and children, such as colic, constipation, colds, etc. That's the reason for its tremendous sale and popularity. Like all good things, it's imitated, but genuine Castoria—the purely-vegetable product—always bears the Fletcher signature.

California is likely to become the first horseless state in the United States, for horses are rarely used there now except in isolated regions.

WOMEN WHO SUFFER

Anaemia Responsible For Most Of The Ills Of Girls and Women

Medical science shows that most of the ills that afflict growing girls and women are due to the fact that the blood is either poor in quality or deficient in quantity. This anaemia is the cause of low spirits, languidness, the poor appetite, breathlessness, and the aching backs that make life a burden for so many women. There is no need for any woman to suffer in this way, for all the miseries of anaemia can be quickly banished by taking Dr. Williams' Pink Pills. It is an established fact that these pills create an abundance of new rich blood—their wonderful reputation is based on that.

Thousands of formerly weak and ailing women have cheerfully testified to the fact that they owe their restoration to good health to Dr. Williams' Pink Pills. One of them is Mrs. Napoleon Gallant, Tignish, P. E. I., who says: "I am among those who can strongly recommend Dr. Williams' Pink Pills. Before I began using them I was in an extremely nervous condition. I could not sleep, neither could I eat, and was constantly growing weaker. I got medicine from a doctor, but it did not seem to meet my condition, and then on the recommendation of a friend, I began to take Dr. Williams' Pink Pills. By the time I had taken a couple of boxes there was no doubt they were helping me. I continued their use until I had taken six or seven boxes when I was again in the best of health. I always keep Dr. Williams' Pink Pills in the house, and if any member of the family feels run-down the pills soon put them in good condition. The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your lost-time energy. You can get these pills through any medicine dealer or by mail, postpaid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Asked what he understood by "foreign entanglements," a school-boy replied, "Spaghetti."

Minard's Liniment—good for tired feet.

A railway station in Oodnadatta, Australia, has only one train in two weeks.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Great works are performed not by strength, but by perseverance.

Neuralgia accounts to Minard's Liniment.

The typewriter is credited to C. L. Sholes, printer editor.

Local Option In India

Voters In Town Of Taran Went "Dry" To A Man

An astonishing thing has happened in the Punjab. Citizens of the town of Taran have lately secured from the Provincial Government the privilege of holding a local option election, as to whether liquor shops, in the town should continue to operate. Over fifteen hundred voters went to the polls and voted "dry" to a man. This is probably the most decisive local option vote yet recorded in any country. The nearest approach to it possibly occurred in Kentucky some twenty years ago when about the same number of votes were cast, and all were "dry" except those of the two liquor dealers and their relatives—seven in all.

Minard's Liniment relieves pain.

For five cents a tourist can ride for hours around the city of Berlin. A system of transfer makes it possible to change at will from street car, auto bus or subway without paying extra fare.

Scientists predict a toothless race. The borer is apparently not the only pest threatening the corn crop.

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the change of life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and I have taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as come at this time."
—MRS. W. V. RUSSELL, R. R. No. 5, Fenwick, Ontario.

British Admiralty Has Brought To Perfection An Electrically Controlled Torpedo

After several years of experimenting with a new type of electrically controlled torpedo, the British admiralty has brought to perfection a projectile which follows the target and carries sufficient explosive to blow the vessel in two when it scores a direct hit, according to reports heard today.

In a test on the admiralty range in Portsmouth harbor, one of the torpedoes got out of control and tore around the harbor at 40 knots. Fast admiralty vessels chased it but they could not overtake it and finally the torpedo landed at Weymouth beach.

Spectators were not allowed to approach within 100 yards of the mysterious projectile and photographs taken by several persons were confiscated for fear the secret of the torpedo's mechanism might be revealed.

The torpedo is not fired like an ordinary torpedo but is launched into the water. Thus the vessel that is carrying it is able to hide in a cove and destroy the enemy fleet with these electrically guided torpedoes without revealing the torpedo carrier's position by an explosion. Once launched, the torpedo is steered by a small wireless apparatus looking like two tube amplifiers.

The first current applied starts the powerful driving mechanism at the back of the projectile. As it travels forward, a fine copper wire unwinds behind it apparently acting as a sort of aerial. A second wave of current controls the steering apparatus which gives remarkable control, enabling the torpedo to follow all the twists and turns of the target. A fin, similar to that of an aeroplane's, gives the operator the choice of launching the torpedo over the surface of the water at a tremendous speed or of submerging it several feet in order to make it hit below the water line.

The tests produced amazing results. Several old vessels were towed out to sea and a torpedo launched many miles away from them. In every case, and there were 14 tests of this kind, a direct hit was scored by the operator who was able to guide the torpedo to within a foot of the spot aimed at.

The torpedo contains a new and deadly explosive of such strength that several of the target ships were cut in half.

The Weymouth mishap occurred when the control instrument burst a tube and left the operator able to guide the torpedo in one direction only. Hence the projectile made ever widening circles until it was grounded.

The explosion of the torpedo head is caused by the contact of four detonators, two on the head and two on each side. The explosion occurs immediately when any one of these come in contact with hard projects.

Ants Have Fire Brigade

Some ant-hills have their own fire brigades. A woman naturalist in France discovered this by placing a lighted taper on a hill. A battalion of ant firemen promptly appeared and extinguished it by squirting liquid formic acid from their jaws on the taper, while others tore at it. Many of the ants were killed, and one hero dragged another from danger.

"I have killed five flies, two mosquitoes and three females."
"How do you know that?"
"Two were on the table and three on the looking-glass."—Il Travaso, Rome.

Canadian Ice Cream

For South Americans

Shipment Goes Forward To Georgetown, British Guiana, By C.N. Steamship

The first shipment of ice cream, which it is believed was ever made to South America from any place in Canada, went forward recently from Truro, N.S., consigned to Georgetown, British Guiana, by the R.N.S. "Lady Drake" of the Canadian National Steamships. The order, which is of substantial size, was received by the manufacturer entirely unsolicited, and the manager of the firm foresees great possibilities in this trade with the inauguration of the new service by the Canadian National Steamships.

Two years ago they made their first shipment of this delicacy outside of Canada to Newfoundland, and this has since developed into a regular trade. Convinced by their success in Newfoundland, the firm decided to extend the export field with the results as noted.

469

ONE-PIECE WRAP AROUND

It's one-piece! The smart printed silk crepe wrap around model with effective shirring and drapes at right side, so suitable for street and all occasions wear. Its extremely slender line makes it so suitable for average full figure. The shirring is repeated at shoulders. Long sleeves have turned-down flared cuffs. A narrow belt crosses back and extends to each side of front. Style No. 469 can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. In the 36-inch size, 2 1/2 yards of 40-inch material with 3/4 yard of 40-inch contrasting is sufficient. Plain silk crepe, canton-fille crepe, crepe Roma, wool crepe, printed cotton foulard and printed rajah silk are fashionable fabrics suitable. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles and cute designs for the kiddies.

Fighting Dealers In Narcotics

Addicts In Egypt Spend \$25,000,000 Annually On Drugs

The extent to which the drug traffic is ravaging Egypt may be gathered from a statement by Colonel Russell Pasha, English head of the narcotics bureau recently established.

He declares that the number of Egyptians who habitually take drugs is estimated at more than 500,000 in a population of 15,000,000 including Europeans and considers that \$25,000,000 is spent annually on the purchase of narcotics.

The bureau is engaged in a stern fight against the dealers in narcotics. One member of the gang recently tracked down in Vienna is reported to have netted \$80,000 during the last two years from the drug traffic.

Three Years Making Table

Ohio Man Used 1,557 Pieces Of Wood But No Nails

Three years of tireless effort have made Burton W. Blair, Marion, Ohio, the possessor of a library table that is considered a work of art.

Without the use of a single nail or screw, Burton has constructed a table that many antique collectors would like to own.

The top is constructed of 1,557 pieces of wood, 17 different kinds being used to give the desired color effect.

Attractive in its simplicity, the unique table contains but three designs, the Masonic square and compass, composed of 62 pieces of wood, and the American flag emblem. Blair is a World War veteran. He began work on his table October 8, 1925.

Girl Best Cattle Raiser

Twelve-Year-Old Annie Turner Is Champion Of British Columbia

This year's champion cattle raiser in British Columbia is little Annie Turner, twelve-year-old daughter of James Turner, Cadboro Bay stock breeder. Her 14-months old Short-horn steer, sired by Braddish Marquis and weighing around 1,100 pounds, won the grand championship of all breeds at the Kamloops bull sale and fat stock show.

But winning trophies for live stock is no novelty for Annie Turner. She won high honors last year and this year she repeated her triumph with chips and other trophies galore.

Prince Albert National Park

Prince Albert National Park, in northern Saskatchewan, has an elevation of 1,500 feet above sea level and contains many lakes and streams which form the beginnings of canoe routes leading both to Hudson Bay and to the Arctic Ocean.

Cadulmum Produced In Canada

Cadulmum was produced in Canada for the first time in 1928. It is used for plating purposes, in colour making, medicine, and dyeing.

British Youths Study Agriculture

An interesting group of British Public and Secondary School Students who have just arrived at Macdonald Agricultural College. These young men will pursue a two years' course of study at the college and during the summer months will work on farms where places have been provided for them. Recruited by the Department of Colonization and Development of the Canadian Pacific Railway the scheme under which these students have come to Canada now enters its fifth year of operation. On completion of their studies these new arrivals will engage in various branches of Canadian agriculture by which time they will have become accustomed to Canadian methods.

Canada Makes Great Strides In Past Few Years In Work Of Aerial Mapping

Strong For Daylight Saving

Twenty-Five Million In States Will Live Under It This Summer

The Merchants' Association of New York announced recently it had completed a survey showing that 25,000,000 persons in the United States will live under daylight saving time this summer.

While a few of the smaller cities and towns have discarded the practice since last survey was made two years ago, the association said the latest inquiry shows the movement on the whole is growing.

A bill authorizing daylight saving is now pending in California; Massachusetts has a statewide daylight saving law; the whole state of Rhode Island will be on daylight saving by virtue of numerous local ordinances, and virtually the entire state of New Jersey will observe the new time.

In New York State 186 cities and villages set clocks ahead, and 33 communities in Connecticut will again adopt the plan. Chicago and eight other cities in Illinois and six cities in Indiana are among other places to adopt the scheme.

Decline Of Chivalry

Knighthood Appears To Be No Longer In Favor

It was bound to come. Woman, having every field of male activity, insisting that complete equality between the sexes should be demonstrated beyond dispute, now insists the absence of qualities of which she has deprived the sterner sex in the process of competing with them. A correspondent who writes to the Star lamenting the lack of chivalry in men today suggests that women should create a demand for those graces in their own friends which former generations classified as "knight-errantry." But knighthood here at any rate is no longer in flower, and if chivalry is inseparable from titles, then there is small hope that the lady's wish will be gratified.—Montreal Star.

Must Be Perfect

The optical glass used in an astronomical telescope must be free from imperfections and internal strain. In the polishing operation only a few ten-thousandths parts of an inch of glass are removed. Errors of a millionth of an inch in the surface curve, must be detected and remedied.

Canada has no leisure class. Those who have no business to attend to are busy at hospitals in the winter and at golf in the summer. Those out of work keep busy watching the sky-scrappers arise.

Canada is taking pictures of herself from the air at the rate of some 60,000 square miles a year. In other words, Canadian flyers are adding to the aerial maps of this country an area equal to two-thirds of Great Britain and Ireland every year, according to N. C. Stewart, Victoria surveyor, who has recently returned from Ottawa after studying aerial mapping and general developments along this line.

"These maps are not taken for any mere scenic record, although they would be well worth while for that alone," said Mr. Stewart. "The maps are used for tracing mineral deposits, oil and timber resources, locating transportation routes, range land and water courses. The airplane is giving Canada the best opportunity she has ever had of studying herself and finding out just how wealthy her resources really are."

Aerial mapping is a comparatively recent development in Canada, although in the last two or three years amazingly long strides have been made. In 1921, for instance, only 280 miles were mapped, while last year the area mapped from the air totaled 66,400 square miles. Last year the Royal Canadian Air Force made 4,000 photographs from the air under direction from the topographical survey department.

There are two methods of air mapping—the oblique and the vertical. The former method covers territory much quicker than the latter, and is practicable in flat country but in British Columbia it will be necessary to use the vertical method.

While the accurate production of maps from aerial photography calls for a good deal of ground control in co-operation with aerial work, the aerial pictures are an excellent means of making quick maps of new territory, a frequent demand in these days of raw mineral and timber development, according to Mr. Stewart. He states that new aerial maps of Northern Ontario and Manitoba show how detail may be obtained in this way that would take years of ground work. On some of the Ontario sheets thousands of lakes have been mapped that never appeared on the records before the air pictures were made.

In the next ten years Canadian officials expect to have a million pictures of Canadian territory, according to Mr. Stewart. One-quarter of that number have already been obtained.

The Explanation

On this trip the crack express had been far from living up to its reputation. First, it would go forward sixty yards or so, then back, then stand still, puffing uncertainly, and then begin the same thing all over again. At last one of the travellers lost his patience and summoned the porter.

"What's the matter with this train?" exploded. "Backing up and jerking forward in this awful way."

"It's quite all right, sir," the porter assured him in that soothing way that porters have. "I think the engineer is teaching his wife to drive."

Area Under Irrigation In Alberta

In southern Alberta there are now ten large irrigation projects in operation comprising an area of slightly more than one million acres susceptible of irrigation from the 5,500 miles of canals and ditches already constructed.

"The woman was wonderful." In all my life I never have met a woman with such intelligence.
"Why didn't you marry her?"
"She wouldn't have me!"—Karlita, turen, Oslo.

W N II 1795

SAY POOL WILL NOT SELL GRAIN AT A SACRIFICE

Winnipeg.—If western wheat pools are blamed for the grain blockade at Port Colborne and Montreal, they are not concerned at the situation in which they are found. But they refuse to be made the "goats" according to Pool officials' statements in answer to Montreal allegations.

"We could mitigate the situation if we wanted to sell our grain at a sacrifice," commented a senior official, "but we refuse to make our farmers pay for a situation that is not our fault. Don't misunderstand. We are selling a certain amount—we are not refusing sales."

"The world surplus is not of our making. There is an enormous amount of grain in the world, and the buying is not exactly brisk. If we wanted to take sacrifice prices we could move the stuff, but we don't intend to penalize our farmers by doing it."

"Why should we relieve the congestion for everybody's benefit but our own? Montreal officials can blame whom they like—we refuse to be the 'goats.'"

Saskatoon.—A report from Montreal which blames organizations of Western farmers for grain congestion in the port of Montreal and which suggests that Western agrarians should accept a lower price is taken exception to here by George H. Williams, president of the United Farmers of Canada, Saskatchewan section.

"The report published by the Montreal Star," he says, "purporting to come from an official of the Montreal harbor commission, can hardly be regarded as a very fair statement."

Mr. Williams' statement continues, "The article finds fault with western farm organizations because they, through the agency of the western pools, are endeavoring to hold the price of wheat up to a level where it will pay the cost of production."

"The report indicates that the official of the harbor commission makes it very clear that the profits of the harbor commission are being interfered with, and we note the solution is to lower the price of wheat."

"This has always been the solution of commercial organizations handling the farmers' produce, simply to pass on to the farmer any misfortune that may come up and safeguard the profits of the handling company. To cover up this demand they suggest that a drop of even a cent would relieve the situation."

"If this is so, how is it that a drop of nine cents in the open market does not relieve the situation? Can it possibly be that all the real wheat is in the hands of the pools, who are holding it for a sensible price, and that all the hawling is about a lot of paper wheat in the hands of speculators, which does not exist in real bushels at all?"

"Somebody ought to explain it! Possibly 100 per cent. control of all the wheat by the pools might not be such a bad idea after all. Apparently its direct result would be to cut out a lot of market camouflage and let us know just where we really are."

Riots Cause Controversy

Part Played By Police In Berlin Riots Is Criticized

Berlin, Germany.—Bitter controversies continue in the Berlin press and among the public as to the part played by the police in suppressing the Communist riots which broke out on May day. Postmortem examinations of twenty-four victims of the riot are said to have revealed that 17 had been killed by police bullets.

The official inquiry has been unable to establish that a single shot had been fired by a civilian against the police. Only one policeman of the 40-odd injured had received a bullet wound and that wound he had accidentally inflicted upon himself.

One hundred and fifty shopkeepers of the Wedding district, where rioting was said to have been very severe, declared that the streets were quite safe from Communist excesses and that a simple police patrol would have sufficed.

Meanwhile, 45 persons of 117 arrested had been sentenced to short terms of imprisonment for breaking the peace. The rest were released for want of evidence.

Cannot Attend Function

Alberta Women Unable To Accept Invitation From England

Edmonton.—None of the five Alberta women who were expected to visit England on June 17, when the Privy Council is to hear their appeal from the decision of the Supreme Court of Canada, which decision declared that they are not "persons" within the meaning of their national charter, the British North America Act, will be able to attend a great public function to be held in their honor in London.

The invitation, which also carried with it an offer of assistance, has been tendered by a group of women in Great Britain, including members of the imperial parliamentary and other notables who have achieved distinction in politics, business, the professions, literature, education and social endeavor.

The Alberta appellants are Mrs. Henrietta Edwards, Mrs. Nellie McClung, Mrs. Louise McKenney, Mrs. Irene Parley, and Magistrate Emily Murphy.

Alaskan Survey Planned

Washington, D.C.—Inventory of the vast resources in timber and hydro-electric power that lie hidden beyond inaccessible mountain ranges in northeastern Alaska is to be taken this summer by navy aviators flying photographers with multiple lenses cameras will unfold the secrets of hidden lakes and inaccessible forests like a magic carpet beneath them.

Frown On Practice

Toronto.—A warning to patent medicine companies against the practice of having sample pills and patent medicines thrown at the doors of householders for advertising purposes was issued today by Hon. W. H. Price, attorney-general. He ordered an inquiry into the death of Audrey Glimmer, Kitchener girl, who died after eating pills that had been left at her door.

Ice Breaks Up On Yukon

Dawson.—The ice in the Yukon river in front of Dawson hotel moved out on May 7, heralding the advent of spring and summer. First prize in the guessing contest on the movement of the ice was divided between Thos. Leach, of Dawson, and Kennedy and Grace Stewart, of Anchorage, Alaska. The approximate amount of the prize was \$7,200.

Opium Seizure At Coast

Vancouver.—A seizure of opium valued at more than \$7,000 was made on the R.M.S. Empress of France by officers of the customs preventive service, according to a report from that office. The seizure consisted of 83 tins and was hidden near the ship's funnels. No arrests were made.

Many Russians Drown

Smolensk, Russia.—Many persons were drowned when a wooden dam collapsed while it was crowded with spectators watching the ice floes driven a spectacular rise of the river Dnieper. The river was many feet above normal, causing a serious flood.

SPOKESMAN FOR GERMANY

Dr. Hjalmar Schacht, president of the Reichsbank, and spokesman of the reparations conference in Paris.

Should Not Be Disfranchised

Committee Thinks Persons Receiving Charitable Aid Entitled To Vote

Ottawa.—The parliamentary committee on privileges and elections has decided to recommend a change in the Elections Act so that persons receiving charitable assistance would be allowed to vote. The act as it stands prevents persons receiving such assistance either by direct gifts or by living in a charitable institution, from voting.

The committee felt that with so many and varied forms of assistance now being extended to persons in unfortunate circumstances it would be too far reaching to disfranchise them all and it would be almost impossible to differentiate.

The committee refused to agree to the suggestion that the clause preventing judges from voting be eliminated. The general opinion seemed to be that the judges did not want the law changed, they did not wish to be placed in the position of either supporting or opposing the government by casting their ballots.

L. J. Ladner, Conservative, Vancouver South, argued it was absurd to disfranchise the judges. He considered it was an insult to the judges.

Marooned Trains Released

Were Held Up During Ten-Day Blizzard In Northern Manitoba

Winnipeg.—Freed from northern snows by a let up in low temperatures, two Canadian National Railway work trains were able to proceed on the way to Churchill, the prairie outlet on Hudson Bay. Both trains had been held up during a ten-day blizzard that had swirled down from the northland almost to the sea.

After days of almost unavailing effort the snow plows succeeded in battling through the trains, on one of which were 160 men en route to Churchill for the department of railways and canals.

A BROWN STUDY

Brown is a more restful and tasteful color, the car designers and interior decorators of the Canadian Pacific Railway have decided, so this will be the predominant note in the sumptuous new sleepers just built by the company's Angus shops at Montreal especially for service on the Trans-Canada Limited. The carpets and curtains will be a rich brown, and the wood finish a lustrous walnut. Permanent headboards, too, will give added privacy, dividing each section from its neighbour cubicle station. The feature of the rear end equipment on the Trans-Canada will be a Solarium-lounge car, with green-tiled bath-rooms, vitreous sun rooms and smoking rooms for women as for men.

Suspect Grain Mixing

Think United States Soft Wheat Is Mixed With Hard Wheat Of Canada

Vancouver.—Possibility that some United States soft wheat is brought to this port and mixed with Canadian grain, is interesting the Saskatchewan Royal Grain Commission just now. Evidence has been produced that at least one such vessel from Seattle was in port, this spring, with a part cargo of soft wheat, and loaded the balance of the ship with Canadian grain. The port warden was before the commission, to explain just what safeguards there are to prevent anything of this sort. His evidence was clear on the point, that in such an event, no government certificate would be issued to cover such a mixed cargo, but that there was nothing to prevent mixing after the Canadian grain had been inspected into the vessel. In such an event, however, the Canadian certificate could not be construed as certifying to such a mixture, though overseas buyers might be deceived as to just what kind of cargo they were buying. It was pointed out that ships en route to the Orient from Seattle, frequently come in here for grain, and many of them have soft American grain aboard. There is a mixture made in Oriental ports of 35 per cent. Canadian hard wheat, and the balance soft, from the United States, but this is not covered by a Canadian certificate.

Plans Flight To Sweden

Second Attempt Will Be Made By U.S. Aviator

Chicago.—Another flight to Sweden from the Middle West is being planned by Bert Hassell, Rockford, Ill., aviator.

Hassell, who piloted the "Greater Rockford" on its projected Rockford-Sweden flight last summer and was forced down in the snow fields of Greenland, declared his next flight would be over route with nine refueling points.

Hassell predicted that within five years aeroplanes with "pay loads" will fly regularly between Copenhagen and Chicago. The route from the Middle West northeastward through Canada to Iceland and Greenland, thence to the European mainland, is the safest possible to Europe, he said, with its longest stretch over water being only six hundred miles.

Oratory Finals

Toronto, Ont.—The Dominion oratory finals will be staged here on May 22. It was announced, several provincial champions will strive for the right to be Canada's representative at the international oratory championship in Washington, on October 28.

Adopt Grade Crossing Bill

Ottawa.—Third reading was given in the Senate of the bill amending the Railway Act which provides for the expenditure of \$200,000 a year to eliminate grade crossings.

AMENDMENTS TO ELECTION ACT TO BE FORTHCOMING

Ottawa.—Candidates should be allowed to hire automobiles or other conveyances to carry voters to the polls on election day, it was decided by the special committee of the House of Commons reviewing the Dominion Elections Act, Sec. 11, which makes the practice an offence to be deleted. There are at present one-third too many polling subdivisions throughout the country, Colonel O. M. Biggar, former chief electoral officer stated. Approximately \$150,000 would be saved in each election by a revision of subdivision boundaries. Sec. 28 is to be amended to meet the difficulty.

Sec. 27 is to be amended so that an election officer guilty of a wilful act or omission shall be subject to a fine of from \$200 to \$500, and one half the fine is to go to the informer. A new section, "2-A," was added, providing that election notices or documents may be fastened to posts or wooden structures despite any municipal bylaw.

Sec. 4 was amended so that although hand bills or otherwise must bear the name of the printer, the candidate cannot be unelected if they do not. It was explained that the section is to prevent anonymous material being circulated.

Farmers and labor organizations may hereafter contribute to election expenses as a result of removing Sec. 9. The action provided that no association could furnish money unless it was specially formed for election purposes. The chairman, C. G. Power, Liberal, Quebec South, said that the section operated unfairly in the case of farmers and labor organizations.

Must Watch His Colors

Party Workers In England Must Be

London.—The party worker who skips lightly from constituency to constituency during the general election campaign will have to keep a sharp eye for his colors. For by a curious practice in British elections, no party has national colors accepted in every constituency. Sometimes the colors in one constituency are completely reversed in another. Occasionally it is a bit awkward for the party enthusiast who wanders far afield.

Photograph Records Of Speeches

London.—Photograph records of speeches of 15 leading politicians, including leaders of the three main parties, are being distributed for use in rural areas in the present campaign. The records will probably prove of great value, apart from their immediate use, as interesting examples of personal styles of oratory.

New York Doctor Loses Radium

New York, N.Y.—Somewhere in New York, \$25,000 worth of radium is smoldering slowly through its tiny containers and threatening burns to anyone who touches it. It was lost by Dr. J. J. Eller, a skin specialist, who believes he left it in a taxi-cab.

Dry mouth and parched throat are grateful for the refreshing coolness of Wrigley's Spearmint.

Wrigley's whitens teeth, sweetens the mouth, clears the throat and aids digestion, while the act of chewing calms and soothes the nerves.

Hotel Longfellow Built

This hotel, the New Pines at
Digby, N.S., was built by Long-
fellow. Not, however, that he saw
it, thought about it or even
dreamed or imagined it. What he
did do towards it was render im-
mortal the Land of Evangeline, the
beautiful Annapolis Valley of which
Digby is the gateway, and so
create a tourist lure.

The New Pines is being built by
the Dominion Atlantic Railway to
further aid in the development of
tourist traffic in the Maritimes

and, with the exception of the out-
door swimming pool, the lines for
which were borrowed from those at
Banff and Lake Louise, it is a
handsome building of early English
type of architecture. The opening
of the Pines will shortly precede
a three day festival at Annapolis
Royal in commemoration of the
three-hundredth anniversary of the
arrival there of Sir William
Alexander's Scottish colonists under
the charter of New Scotland
granted by King James I.

CHAPTER XIX—Continued.

Connie had rehearsed this moment a thousand times. She stood quietly on the steps for a moment, then slipped gracefully to the platform. Connie herself could not have imagined how changed she was. From coiffure to dainty French heels she was dressed as if fresh from the hands of an expert Parisian couturier. So dazzling was she that she positively took Donald's breath away. It seemed to him that she had grown like a magic rose, all at once from a tiny bud to a full blossom. No fault could be found with the perfect oval of her face, or with the delicate white rose skin, from which every trace of tan had gone. The long lashes that fringed her big blue eyes had turned a shade darker than the curling waves of her abundant golden hair. And, whose small form had been hidden in the rear, moved bashfully forward, fumbling the wide hat held in his hand. "Elio, Connie," he blurted, his lips parted in a wide smile of welcome.

Instantly Connie forgot her assumed dignity and became her warm, impulsive little self. With a glad cry she flung her arms about Andy's neck and kissed him.

"Strike me pink!" breathed Andy, as his hand stole up to touch the spot where Connie's lips had brushed his cheek.

Connie turned to face the lake. "Oh, Dad!" she cried in ecstasy, "Isn't it good to be back here again?" She stretched her arms toward the ice-clad peaks. A gentle breeze swept down the wooded slope to fan her face as though in welcome. The blood surged beneath her smooth white skin and went singing through every vein. "Ah!" she sighed happily, as she inhaled a deep breath of air laden with the odour of pine from the hills she loved. Donald, gazing at her hungrily, saw tears brimming under her long lashes.

From the far end of the train a tall, grey-haired man assisted a slender sweet-faced woman to the ground, and then walked towards the station. As they stepped to the platform the woman's eyes rested on Donald, who stood with his back to her. Instantly she became rooted to the spot, eyes wide, one hand fluttering toward her heart. With the supreme, wondrous mother-love shining in her eyes, she held out her arms.

"Donald!" she cried passionately. "Donald!"

Donald whirled at the sound of the loved voice calling his name. His heart throbbled wildly, his throat felt constricted and his face paled under stress of strong emotion.

"Mother!"

His arms were around his mother, yearning, tender, hungry, after those long months of separation. Her face upturned to his was white and drawn, but her eyes shone with hallowed joy. He felt his hand gripped in his father's strong fingers, and saw his eyes shining with tears. John McLean patted his boy's dark head with a shaking hand.

"Donnie! My boy, Donnie!"

For some time Donald was oblivious to all save the great happiness of meeting his parents. His mother's embrace almost unmanned him, and it was with difficulty that he kept back the sobs that tightened his throat.

He led his parents to the other end of the platform and introduced them to his friends.

Robert Rennie's comments were simply gasps and a reiterated, "Well! Well!"

Andy offered his usual contribution. "Strike me pink!" he said.

Connie's eyes were filled with soft eagerness as she greeted Donald's mother. The glow in Donald's face as he spoke to Connie was poignant significant of his deep love for her. But Connie, to his consternation and dismay, met his ardent glances with a look of cold indifference.

Since Connie's arrival Janet's features held a look of disquietude, but she acknowledged the introduction to Donald's parents with a radiant smile.

A moment later, Connie, with skirts held high, was running down the railroad track.

"Going after her horse," smiled Watwright in answer to Donald's question.

"Will you have dinner with us?" invited Donald.

"Yes, thank you," responded Watwright. "We will sleep in the car to-night," he continued, "but Constance insists that we must return to the old home as soon as possible. She has been busy drawing plans for a chalet she intends building on the bluff. Connie returned with the old trapper, the latter leading Pegasus.

At dinner Connie showed no signs of her former shyness. She was as

self-possessed, calm and perfectly poised as a goddess. A glad light filled her eyes as Gillis and his crew of "redshirts" filed into the big dining-room. She sprang to her feet and greeted them joyfully, shaking hands with each and everyone.

"I'm so glad to see you, Jack," she smiled.

The big logger took her tiny hand in his. "We're sure glad to have you with us again, Connie."

"May I bring Andy in to dine with us, Mr. McLean?" she asked as she came back to the table.

Donald nodded assent. She ran gleefully to the kitchen, and a moment later the loggers grunted broadly as she came through the door leading the protesting cook by the arm.

"Now," she said as Andy sat down, "we're all here." She looked about her and clasped her hands rapturously. "It seems as though I had been gone for years. And oh, it is so nice to be home again!" She sank to a chair between Andy and the trapper. "Do you remember, Andy, when you were dressed as a butter and danced with John at your party?" She threw back her golden head and her silvery laughter filled the room.

Janet was unhappy from the moment of Connie's arrival. She had caught the look of adoration in Don-

ald's eyes as Connie stepped to the station platform. Standing there then she had quite definitely abandoned any hope of winning him. And Janet had been so sure that once she had held a place in his heart. A great depression, a great weariness of spirit, settled upon her.

That evening, as Donald walked with his parents by the lake-shore, he turned to his father. "Dad," he said anxiously, "do you think I have made good? Will you forgive me for—"

John McLean's eyes grew suddenly misty. "Donnie," he began gently, "Mr. Rennie has told us all about you. And no man could speak more highly of another." He drew a newspaper from his pocket. "Haven't you seen this?"

It was Vancouver's morning paper, with a full-page devoted to the visit of the Eastern lumbermen. There were several photographs of the Summit Mill and one of Donald. The paper spoke of him as "the able young engineer whose modern ideas and energy had given to British Columbia a logging plant and mill that were a credit to the Province."

Donald saw the proud light in his father's eyes, and his heart was filled with a great peace.

The next day carpenters and material arrived for the construction of Watwright's new home. That afternoon Connie, clad in fashionable riding habit, came to the mill office with her foreman to place an order for lumber. Pegasus in silver-mounted bridle and English saddle was proudly restive. With neck arched he curvetted and rocked while Connie sat on his back with that complete lack of self-consciousness that is the heritage of a born horsewoman. Before leaving she rode up the hill among the toiling workers, her irresistible smile bringing an answering grin from the "redshirts," who doffed their hats and shouted a joyous greeting.

All day pack-horses and men struggled up the hill, staggering under the weight of building material. But although Donald strained his eyes for a glimpse of the golden-haired rider, he saw her no more that day.

(To Be Continued.)

NEVER wait to see if a headache will "wear off." Why suffer when there's always Aspirin? The millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. The medical profession pronounces it without effect on the heart, so use it as often as it can spare you any pain. Every drugist always has genuine Aspirin tablets for the prompt relief of a headache, colds, neuralgia, lumbago, etc. Familiarize yourself with the proven directions in every package.

The invisible difference

Many motor oils look alike, but there is a vast difference in the way they perform. Unfortunately this difference is difficult to detect.

The invisible difference which makes one motor oil better than another must be inherent in the crude from which it is made.

There you have the reason why Marvelube gives better engine lubrication than oils refined from ordinary crudes. Imperial Oil searched the world over for a better crude—and in South America they found it. From it they make Marvelube—a pure, carbon-free, full-bodied oil that resists heat and extreme heat and pressures of modern engine operation.

Aircraft operators prefer Marvelube because better lubrication means greater safety and longer intervals between overhauls. Motorists prefer Marvelube because it is the ideal oil for modern motors. It ensures greater power, greater flexibility and greater economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car. Consult the Marvelube Chart at Imperial Oil service stations and dealers.

Marvelube

a better motor oil made

Special Meeting of Town Council.

Stony's Councilors held a special meeting Monday night, with Mayor Oatway presiding. An order from the Board of Public Utilities was read, giving its sanction to the sale of the Town pole line, and transfer of the electric light franchise to Calgary Power Co.

The Bylaw to provide for this sale and transfer was then given its second reading and approved unanimously.

Bylaw and Agreement of Sale to the Calgary Power Co. will appear for two issues of the Stony Plain Sun, commencing May 23d.

Bylaw providing for a vote of burgesses on Monday, June 17th was then passed.

Edmonton Beach.

Anglers will be pleased to learn that the fishing season opens at Edmonton Beach on today, Thursday, May 16.

Proprietor Barrie is busily engaged in getting his boats ready for the coming season. A carload of Airplane Skiffs arrived this week from B. C., and will be on view May 24th.

A first-class baseball game will be played at the Beach on Victoria Day, May 24.

The long delayed improvement of giving Beach patrons railway accommodation is about to be realised. Mr Barrie has been assured by the railway authorities that a station will shortly be erected where the Five Mile Road crosses the C. N. tracks.

IT PAYS TO PAY CASH.

Mrs H Campbell underwent an operation Sunday, in an Edmonton hospital.

Mr H Mundt was up from Bruderheim over the weekend.

Mr Karl Mayer is moving this week to the City, where he has opened a real estate office.

Mr Maclean, who had been teaching at Fruitlands school since September, resigned last week and has accepted a position in Edmonton.

At the graduating exercises of the Misericordia Hospital training school on Tuesday last, in Edmonton, Miss Marie H Geistlinger of Stony Plain received the diploma of her profession.

The British America Oil Co. have erected a large warehouse on the railway spur line near the Federal elevator. This company is doing a good business here at present, and have appointed Mr William "Chevy" Miller as their agent here.

The Carvel Ukrainian Association are holding a concert in their hall on Saturday evening next, May 18th, at 8 p.m.

Accident on Sunday Evening

While Mr Adolf Kulak was driving to town Sunday evening with his horse and buggy, the horse became frightened at the glare lights of passing autos and bolted, upsetting the buggy and contents. Adolf was brought to Stony, where Dr Walton put a couple stitches in his scalp. Adolf said he'd given the pony too big a feed of oats for dinner.

United Church Notes.

On Sunday last the Rev C H Reppert took charge of the services at Brighbank, leaving Pastor Sander free to conduct services at Hansen's Corners. At both places the congregation was splendid.

It is anticipated that a special musical service will be held in the near future at Stony Plain.

Next Sunday Rev Sander will give a special sermon on the Life and Work of Martin Luther.

Walther League News.

In March the local society had sent an invitation to the W. L. District Executive to have the Summer Camp and Annual Conference in Stony Plain. The invitation has been accepted. At the social meeting on Sunday evening a committee was elected to take charge of all the necessary arrangements, especially for the Summer Camp at Edmonton Beach. Those on the committee are: Val Kulak, "Bill" Miller and Mathilda Enders.

The "Play" Committee reports that everything is in readiness for the Annual Play to be held tomorrow night, May 17th. Get your tickets today.

The W. L. baseball team has been invited to take part in the program which is to be held May 20 at Concordia College, it being the inauguration of an annual event known as College Day.

Spruce Grove News

A start was made this week on grading the Highway from Winterburn west. Several road-makers' camps are in this district, one being located in front of the local butcher shop.

The Boy Scouts held their regular meeting in the Church building on Friday night, with Scout Master Gibson in command.

The dance given last week by Martin's Orchestra was well patronised, a big delegation coming out from Edmonton.

Spring work has been progressing very favorably throughout the district. With another week of good weather, seeding operations should be drawing to a close.

During the past week residents have been cleaning up their yards and generally making their premises more tidy. Quite a number have been busy planting gardens, both flower and vegetable, and with the coming of warmer weather, the result of their labors will appear.

Golden Spike

On Thursday afternoon a prairie fire which came in on the west farm of Mr Peter Sodorozni, in the north part of this district, destroyed a frame barn 30x18, containing 3 tons of timothy hay; a frame granary and 65 bushels of seed barley; and a large implement shed. The house and a stack of hay were saved, thru the strenuous efforts of some neighbors. The fire which did the damage came down on the strong wind from the west, and is supposed to have originated in some brush piles which had been set fire to along the road. An investigation is being made.

Mr Emil Hennig has just had several improvements made to his house premises.

The stork visited the fox farm of Mr Hill and left a litter of nice little Reynards.

Holborn Happenings.

A fire which occurred last Thursday afternoon on the farm of Mr J Strassburger, west of Holborn hall, completely destroyed two barns there. This resulted from a running prairie fire which came in on the land with the northwest wind. Shortly before the blaze was noticed, a man driving a team of horses was seen passing the spot.

The U. F. Committee is working on the list of sporting items for the Big Event May 24th, and a bigger and better picnic is promised than ever before.

The bill coming up from the ferry is at present pretty badly cut up with rats, caused by the trucks hauling up gravel from the river.

Ford

Do You Know?--

That no automobile except Ford selling for less than \$1500.00 has triplex shatterproof glass windshield as standard equipment? That the new Ford Car has 25 ball and roller bearings in the chassis?

That when the new Ford is travelling at 50 miles per hour, the revolutions per minute of the motor is only 2077?

That the new Ford stands out supreme in its field in mechanical design, specifications, equipment, quality, and precision workmanship?

"BUY YOUR FORD CAR NOW"

Stony Plain Motors.

ENDERS & BARON, Stony Plain.

"McLaughlin-Buick get-away, power, speed and easy riding surpass any car I have ever driven. I do not think there ever was a more beautiful car made."

(Name upon request)

MEN and women in every community have discovered that this dynamic car provides an advanced standard of motoring—that it out-runs, out-climbs, out-performs any automobile they have ever driven—that it is exactly what McLaughlin-Buick owners say it is; the finest performing automobile ever built!

More than twice as many people have purchased McLaughlin-Buicks as any other automobile at or above its price. And additional thousands are getting behind the wheel, getting the facts and entering orders for McLaughlin-Buicks with each passing week.

Matchless style, matchless comfort and, above all, matchless performance, are the reasons. Come, prove these things to your own satisfaction. Take the wheel of this car—test it against any other—and you, too, will join in the countrywide endorsement of McLaughlin-Buick!
